2025 is over the halfway and so much has either just happened or
is about to
Here is the latest update from my studio...

**I have just returned from an
expedition with
Ocean Geographic examining
climate change in Svalbard and
the Arctic Circle**

This time my journey was on board the Aurora Expedition ship with non other than the amazing Sylvia Earle founder of Ocean Geographic among her many accolades. We (approx. 90 of us) were in the Arctic Circle and Svalbard.

Here I witnessed the changes that has happened in just one year since my last trip in 2024 and it was devastating to see,
